

Basic diagram connection for convectors KORAWALL Therm-V WVT Heating or cooling

- 1 thermostat
- 2 power supply 230 V AC/ 24 V DC
- 3 terminals L, N and PE for connection to the electrical network
- 4 tangential fans with EC regulation
- 5 thermostatic and connection fittings
- 6 thermostatic valve with thermoelectric actuator 24 V DC
- 7 temp sensor (room)
